COMMITTEE REPORTS:

The Building & Grounds Committee reported concerns regarding the Recreation Field. Mrs. Eisner discussed emails she and the committee exchanged regarding the new night time field lighting and scoreboard that are scheduled for installation. The Township is unable to access power from the pole next to the train tracks by the field. Glen Avenue access is also not an option. The solution is to access power from the Library building. The Board then held a discussion on the Library’s ability to handle the extra power load and having a separate meter to track the expense of the electricity for the field so that the Library does not incur the expense. Don Fiore, Architect, will be meeting with Robert Hogan, Superintendent of Recreation, to address hooking the power to the Library. The Library building may need to upgrade its power capacities in the future, but for now should be able to handle the extra power load required to run the lights on the field. Mrs. Miggins, Mayor of Millburn Township, asked that all the emails be forwarded to her. She will copy Mr. Hogan and loop in Mr. McDonald, Township Administrator, in order to sort everything out.

Mrs. Miggins went onto inform the Board that there will be no local tax increase for the year 2022. This will be the second year in a row for Millburn with no local tax increase. Essex County taxes will also not go up for 2022.

The Board then discussed parking as it pertains to the Recreation Field. Ms. Sherman asked about the chances of opening up the commuter parking lot to accommodate parking needs the Library may have while games are in progress. Mrs. Miggins said that she can look into it. She went on to say that the field and night time games are something that the local community wants. The taxpayers of Millburn will need to be able to park to watch their children’s games. Ms. Sherman and Mrs. Kelly said that maybe signage can be looked into for nights when the Library has programming that would require extra parking. Mrs. Miggins suggested that the Library send over a copy of dates to the Recreation Department. Coordination will need to happen. There has to be a balance between the Library’s needs and the Recreation Department’s needs. Mrs. Miggins will speak with Mr. McDonald regarding striking a balance. Mrs. Binder asked if the residents along Glen Avenue will be bothered by the lights. Mrs. Miggins said that the installation of night lights on the field has already been approved and they will be installed shortly. Plantings are being put in to obscure the lights from residents along Glen Avenue.

Mrs. Binder asked if the Library is obligated to help. Does the Board have to let the Township hook up the electric to the Library building? Is the Library independent? What if they don’t want to do it? Mrs. Miggins said that she did not know. Mrs. Miggins asked who pays the electric bill now. Mr. Banick stated that the bills are paid by the Department of Public Works. The monthly expenses are charged back to the Library. The Library pays the expense quarterly to the Township out of its appropriation for the year. Mrs. Miggins stated that the Township pays now through the appropriation given to the Library annually. With the installation of a meter the Library will incur no added
expenses. In closing Mrs. Kelly stated that why would the Library say no to this if there will be no effect.
