The Buildings & Grounds Committee reported on the second-floor renovation. The architect has notes from the Committee and Ms. Chenofsky Singer’s plans. He will use them to draw up plans for the Board to review. The renovation will have a start date of Summer or Fall 2024. The Library will remain open to the public during the renovations.

The Buildings & Grounds Committee reported on replacing the existing security camera system in the Library. The system is eight years old. The new system of twenty-two Verkada cameras would be purchased from OSI Technology located in Warren New Jersey. Mr. Banick asked the Board if they would prefer the five-year license for $53,873.00 or the ten-year license for $67,206.00. The camera system itself will have a ten-year warranty. The Board discussed the licensing agreement. They feel that the five-year license is best. Technology changes so quickly that there may be a need to upgrade again within ten years’ time.

The Building & Grounds Committee reported on the exterior lighting at the Library. The fixtures are original to the building. The new proposed lighting will be aesthetically pleasing and will not infringe on the Library’s neighbors. The Board asked if the Committee had done any research on Green Energy Grants. They have not. The Committee feels that doing so will delay the project moving forward. The Board agreed.

The Buildings & Grounds Committee reported on the elevator. The Board discussed replacing needed parts versus a new elevator. The Board would like to know if a new elevator would mean changes to be ADA compliant. OTIS Elevator company is putting together proposals. The Board will consider their options once they receive the proposals.
The Labor Negotiations Committee reported that the contract has been signed by all interested parties and is in use. Library Management has informed the Union that the next contract negotiations will begin at least eleven months ahead of the current end date of December 31, 2025.
